

land, the surface of which is owned by the United States of America and managed by the United States Forest Service. Tract 574 contains 1,045.3 acres and is situated seven miles west of Hillsboro, West Virginia on the waters of Hills Creek and the waters of Robins Run, a tributary of Spring Creek. The second tract, known as the Killingsworth Tract, contains 179 acres and is situated on the headwaters of Spruce Run, a tributary of the Greenbrier River. Both properties are located on Briery Knob. They each were mined during the 1940's by surface mining methods. A face-up area for an underground coal mine under permit by the West Virginia Department of Energy is located on Tract 574.

In order to establish that the requester has VER for surface coal mining on the properties in question, OSM must first determine that the requester has demonstrated all necessary rights to surface mine the coal. On November 17, 1989, the U.S. Department of Agriculture (USDA) Forest Service advised OSM of the USDA Office of General Counsel's opinion that "* * * the owners did not reserve the right to remove the coal by surface mining when these lands were acquired by the United States." This opinion was reaffirmed on February 6, 1991, subsequent to Mr. Van Gilder's acquisition of the coal and his VER determination request. On April 23, 1991, OSM informed Mr. Van Gilder that the agency could not consider his request to be administratively complete in light of "* * * the unresolved difference of opinion concerning the nature of the property rights you possess."

In December, 1995, Mr. Helmick filed an action in the United States District Court for the Northern District of West Virginia, claiming that his mineral interests had been taken without just compensation when the Forest Service determined that Mr. Van Gilder's interest in the tract did not include the right to conduct surface mining. *Helmick v. United States*, No. 95-0115 (N.D. W.Va.) After the Government filed a motion to dismiss for failure to state a claim on February 15, 1996, Mr. Helmick amended his complaint by adding the Department of the Interior as a party, by eliminating his claim of a taking under the Tucker Act, and by substituting three new counts seeking to review "agency action" under the APA. On September 8, 1997, the court in *Helmick* ordered the Secretary of the Interior to render a final VER determination by December 6, 1997.

In order to comply with the Court's order, and because of the time that has passed since OSM's last administrative

action in this matter, OSM believes it is appropriate to reopen the administrative record to allow all interested persons to provide any additional factual information as to whether the requester has the property right to mine by the proposed method, and as to whether the requester has VER under the applicable standards. If OSM determines that Walter D. Helmick has VER, he may apply to the West Virginia Department of Energy for a permit authorizing the surface and auger mining of coal on the two tracts in question. If it is determined that Mr. Helmick does not have VER, no surface or auger mining will be permitted.
